Work experience

2023 – 2024
Wordpress Developer - Head of Development Department
Online Sharks - Hetherlands

As a WordPress Developer, I led the web development department, managing a team of 3 developers. I worked on over 90 websites for clients across various industries. These projects ranged from niche-specific websites to large eCommerce platforms with more than 5,000 products. My responsibilities included developing custom strategies tailored to client needs, implementing WordPress solutions, and integrating popular services and APIs to enhance site functionality and user experience

- Managed the web development department with 3 subordinates.
- Spearheaded the development of strategies for over 70+ clients, improving website performance and client satisfaction.
- Developed 5 custom plugins, including solutions for PDF generation, two-factor authentication, and income calculators.

2017 – Currently
Freelancer - 17th in Frontend Develop
Freelancehunt - Ukraine Freelance Platform - cutt.ly/freelancehunt

I have a very good reputation among clients and other developers, I have developed more than 200+ websites for most European countries, and I have extensive experience in developing for the USA and Canada.

- Ranked 17th (among 2338 developers) in the category "Web development"
- Development of platform with courses for the international association of doctors.

2016 – 2018
Junior PHP Backend Developer
DS Agency, Marketing Agency, Ukraine

As a Junior PHP Backend Developer, I started as an intern, where I learned the fundamentals of PHP and MySQL. I collaborated with senior developers and the frontend team to integrate backend systems and improve website functionality.

- Improved website load times by 15% through backend optimizations and efficient database queries.
- Successfully integrated APIs for 3 client websites, enhancing functionality and user interaction.
